

artery	artery wall	blood vessel	cell
membrane	platelets	pulse	vein
angina pectoris	arrhythmia	cardiac arrest	cyanosis
dull	edema	dizzy	drowsy
nausea	throbbing (pain)	anesthetize	angiography
angioplasty	cardiograph	cardiopulmonary resuscitation (CPR)	general anesthetization
MRI scan	cardiac edema	congestive heart failure	cholesterol
clot / clotting	congenital heart disease	coronary heart disease	heart murmur
hypertension	myocardial infraction	obstruction	rheumatic heart disease

thrombosis	anesthesiologist / anesthetist	exploratory surgery	implant
bypass	pacemaker	rehabilitation	analgesic
anesthetic	cardiant	cardiotonic	warafin / Coumadin
coronary care unity (CCU)	critical condition	life support	observation
organ donor	systole & diastole (S & D) [atrial, ventricular]	terminal (illness) terminally (ill)	
angio-	arteri(o)-	cardio-	my(o)
hyper-	scler(o)-	-graph -graphy	-ic
-ist	-osis
